Information Design – Achieving Measurable Results

The International Institute for Information Design (IIID) is proud to announce Vision Plus, a multi-disciplinary international conference on Information Design, to be held July 5–7, 2007 at Schwarzenberg, Austria. The theme of this twelfth in the series of Vision Plus symposia is "Information Design – Achieving Measurable Results", and explores one of the most critical issues facing communicators today:

- How and to what extent can we measure the success of a given work?
- How do we quantify the role and impact of intangibles like design?
- What techniques and technologies can be used to get measurable results?
- How are information designers building the necessary metrics into their projects?

Vision Plus will explore this challenging, complex, and controversial question from all angles. The program will present successful examples and case studies, and the sessions are structured to facilitate stimulating and provocative discussions. Some of the main topics to be covered are:

- Orientation systems and transportation information
- Web-Design and navigation systems
- Simplification of complex information in financial and health communications
- Inclusive design
- Educational initiatives: curriculum development and exchange programs

The conference will be chaired by IIID President Robert O. Swinehart, Carnegie Mellon University, Pittsburgh, USA und IIID Vice President Charles Wesley Ervin, Health Care District of Palm Beach County, Florida, USA.

For the first time parallel sessions will be held including workshops. The conference language is English.

Registration

Vision Plus 2007

Information Design – Achieving Measurable Results

Das International Institute for Information Design (IIID) veranstaltet vom 5. bis 7. Juli 2007 ein interdisziplinäres Symposium Vision Plus in Schwarzenberg, Vorarlberg. Das Thema für dieses 12. international besetzte Symposium ist "Information Design – Achieving Measurable Results":

- Wie kann man den Erfolg eines Projekts messen?
- Anhand welcher Kriterien lässt sich die Qualität von Information feststellen?
- Wie kann man vergleichbare und messbare Resultate erzielen?
- Wie kann man objektive Maßstäbe im Designprozess einsetzen?

Vision Plus stellt sich mit diesem Thema einer aktuellen, von Wissenschaft und Wirtschaft gleichermaßen gestellten Herausforderung. Es werden erfolgreiche Beispiele und Fallstudien aus verschiedensten Bereichen des Information Design präsentiert, darunter:

- Orientierungssysteme und Verkehrsinformation
- Web-Design und Navigationssysteme
- Information Design im Finanz- und Gesundheitsbereich
- Inclusive Design
- Ausbildung und Training

Den Vorsitz führen IIID Präsident Robert O. Swinehart, Carnegie Mellon University, Pittsburgh, USA und IIID Vizepräsident Charles Wesley Ervin, Health Care District of Palm Beach County, Florida, USA.

Dieses Jahr werden erstmals parallele Sessions mit Workshops abgehalten. Die Konferenzsprache ist Englisch.

11:15 30 min.	Coffee break
12:10 40+5=45 min.	Mikel P. Breitenstein, Adjunct Professor, University of Wisconsin-Milwaukee, School of Information Studies, residing in Long Beach, California, USA; Bryce D. Breitenstein, CEO, Breitenstein Medical Associates, Long Beach, California, USA; Center Medical Director, Concentra Occupational Medical Center, Placentia, California, USA: <u>Dilemmas of Information Organization and Delivery in "The Attention Economy"</u> (Presentation, 40-45 minutes for both speakers + questions to follow)
11:45 20+5=25 min.	Guido Kempfer, Head, User Centred Technologies Research, FH Vorarlberg, Dornbirn, A: <u>Quantifying Joy of Use</u>
13:00 90 min.	Lunch

Session 2:**Measurable results I**

14:30 5 min.	Introduction from the Chair: Charles Wesley Ervin, Communication and Public Affairs Specialist, Health Care District of Palm Beach County, Florida, USA; Board Member, Communication Research Institute, AUS; IIID Vice President	
14:35 25+5=30 min.	Prof. Robert O. Swinehart, School of Design, Carnegie Mellon University, Pittsburgh, USA; IIID President: <u>Moving your Mail: A case study on the design of the official Mail Forwarding and Change of Address Order for the US Post Office</u>	
15:05 25+10=35 min.	Karel van der Waarde, Van der Waarde Design Research, Elewijt, B; IIID Board Member: <u>Measuring the quality of information about medicines: is design really benign?</u>	
15:40 40 min.	Coffee break	
	Parallel sessions:	
	1. Print & Screen	2. Space & Navigation
16:20 25+5=30 min.	Krzysztof Lenk, Professor, Department of Graphic Design. Rhode Island School of Design, Providence, USA: <u>Harper's Index Inspiration - Translating figures into emotional information</u>	Gordon Akwera, Creative Director, Information Design, Addison, New York, USA: <u>Design Impact on New York City Parking Signs: Motorists pay \$600 million in parking violations!</u>
16:40 25+10=35 min.	Mario Doulis, Professor for Interface Design at the University of Applied Sciences Northwestern Switzerland, Basel, CH; Victor Zwimpfer, Pro*Doc Intermedial Aesthetik at the ifm (Institut fuer Medienwissenschaften); Basel, CH: <u>Mapping the world / Digital qualities of everyday life</u>	Rupesh Vyas, Coordinator of Information and Digital Design, National Institute of Design, Paldi, Ahmedabad, IND: <u>Designing information products for public spaces</u>
17:20 40 min.	Panel discussion / workshop: Chair: Jim Northover, Founder and chairman of Lloyd Northover, a member company of the Media Square plc group, London, GB: <u>What does the information design tell us about the organisation that is behind the communication?</u>	
18:00	End of Session 2	
19:30	Social event	

Friday, 6 July 07

Session 3:

Measurable results II

9:15 5 min.	Introduction from the Chair: Charles Wesley Ervin	
9:20 35+10=45 min.	Alex Tyers, Senior Research Associate, Communication Research Institute, North Fitzroy, Melbourne, AUS: <u>Performance-based design for money and medicine – how measuring a design's performance can accelerate the design process and deliver superior design outcomes</u>	
10:05 40+10=50 min.	Cori Schauer, NASA Ames Research Center / QSS Group, Inc., Mountain View, California, US Brianna Sylver, president, Sylver Consulting, Chicago, Illinois USA: <u>Building measurement into qualitative research without having to crunch numbers</u> Section 1: Project types and research techniques Section 2: Key metrics of a successful research project	
10:55 40 min.	Coffee break	
	Parallel sessions:	
	1. Print & Screen	2. Space & Navigation
11:35	Workshop, 85 min.: Cori Schauer, NASA Ames Research Center / QSS Group, Inc., Mountain View, California, USA Brianna Sylver, President, Sylver Consulting, Chicago, Illinois, USA: <u>Building measurement into qualitative research without having to crunch numbers</u>	Workshop, 55 min.: Prof. Keith Bright, Keith Bright Consultants Ltd., Thatcham, GB, and Veronika Egger, Principal, is design, Wien/Vienna, A; IIID Board Member (Treasurer): <u>Visual contrast for the design of effective orientation</u>
12:30	Section 3: An interactive, design research exercise Section 4: A group debrief	Presentation, 30 min.: Thomas Porathe, Manager, Maelardalen User Experience Lab, Dept. of Innovation, Design and Product Development, Maelardalen University, Eskilstuna, S: <u>Measuring effective map design for right guidance: an experiment comparing electronic map display principles</u>
13:00 90 min.	Lunch	

Session 4:**Measurable results III**

14:30 5 min.	Introduction from the Chair: Charles Wesley Ervin	
14:35 $30+10=40$	Alex Bitterman, Assistant Professor, School of Design, Rochester Institute of Technology, Rochester, USA: <u>Deconstructing the measure of disability: toward an inclusive metric for the evaluation of systems of visual communications and infographics</u>
